Auto CAD Course Curriculum

Civil, Mechanical & Electrical Drawings

AutoCAD 2D

- Coordinating Systems in AutoCAD 2d
- Drawing and Modifying Objects
- Organizing Drawings
- Annotating Drawings
- Working with Data
- Getting Information from Drawings
- Working with Table
- Plotting Drawings
- Isometric Drawings in AutoCAD
- AutoCAD Applications for Building Drawings
- Understanding User Coordinate System
- Customizing AutoCAD
- Project Documentation

AutoCAD 3D

- Coordinate Systems in AutoCAD 3d
- Viewing A 3d Model
- Creating Wireframe Models
- Creating Surface Models
- Modelling Solid Objects
- Editing 3d Objects
- Generating Drawing Views of Solid Models
- Calculating Mass Properties of Solid Models
- Rendering
- Animations for 3d Objects
- Working with Raster Images
- Project Documentation
